EDUCATION

SGGS Institute of Engineering & Technology, Nanded

BACHELOR'S OF TECHNOLOGY
Batch of 2023 | Nanded, Maharashtra
ECE

EXPERIENCE

TBP CODOT | SOFTWARE DEVELOPER - I

August 2024 – Current | Bangalore, India (Remote)

- Built a **multi-tenant PG management platform** with **120+ screens**, **3 role-based portals**, streamlining financial, compliance, and maintenance workflows.
- Developed **GooCampus**, a **Next.js 15** mentorship platform serving **10K+ users** across **4 countries**, featuring mentor discovery, scheduling, and learning workflows.
- Built a **cross-platform meeting system** with **Google Meet** and **OAuth 2.0 Calendar integration** for automated scheduling and event management.
- Developed production-grade applications using **React**, **Next.js**, **TypeScript**, **Node.js**, **FastAPI**, **MongoDB**, **PostgreSQL**, **Supabase**, and **React Native**.

OLA | SOFTWARE DEVELOPER - I

August 2024 – August 2025 | Bangalore, India

Kruti.ai

- **Developed AI-powered agentic workflows** for cab booking, food ordering, and bill payments, enabling end-to-end **task automation**.
- Collaborated on building the Discover feature (projected 50K DAU).
- Collaborated with engineering team to deliver production-ready features using **React**, **Next.js**, and **TypeScript**, contributing to **component architecture** and seamless **API integrations**.

DEALSDRAY ONLINE PVT. LTD. | FULL STACK DEVELOPER INTERN

February 2024 – August 2024 | Bengaluru

- Contributed to the maintenance and enhancement of an internal **Warehouse Management System (WMS)** supporting inventory, repair, and product lifecycle workflows for refurbished mobile devices.
- Built and enhanced full-stack features using **React.js**, **Node.js**, **Express.js**, **MongoDB**, and **REST APIs**, while resolving production issues and improving internal operations.

PROJECTS

MEDSOVERFLOW | FULLSTACK | GITHUB

- Built a **Stack Overflow-inspired medical QA platform** featuring **authentication**, question posting, voting, tagging, search, and complete **CRUD** functionality.
- Designed and integrated **RESTful APIs** using **Node.js**, **Express.js**, and **MongoDB** for efficient data management and seamless frontend-backend communication.
- Developed responsive and reusable UI components with **React.js** and **Tailwind CSS**, delivering a consistent user experience across devices.

TECH-BEAT | FRONTEND | GITHUB | PREVIEW

- Developed a responsive e-commerce frontend with product browsing, search, filtering, sorting, and state management using **React.js** and **Redux**.
- Built reusable, component-based interfaces and optimized state management to improve maintainability and user experience.
